TRAIL UPDATE: I want to thank everyone who came to work on our trails on Sunday, August 15th. Even though the temperature and humidity were high everyone really dug in and because of their efforts our entire trail system is now open. 25 adults and one child worked from 9 AM to 1:30 PM which amounted to over 200 man-hours! Some people worked on their own Saturday and returned on Sunday to help with the group. Bill Cullen brought his tractor both days to brush hog the Trailhead property so that area is now open. It has been years since our entire trail system has been open to this extent at one time, but you know how Mother Nature is so please keep an eye out and let me know if you encounter any problems. If you missed the fun this year, we'll be having another trail cleanup in early spring 2011--it's a great way to become familiar with our trail system. Thanks again to everyone for their hard work. I know we say it all the time but the horse park could not be what it is without all the hours of volunteer help.
